

General Terms and Conditions for the Use of the Yokoy Visa Corporate Debit Card

1. Contracting parties and subject matter

This Agreement governs the relationship between Yokoy GmbH, Hamerlingplatz 8/17, 1080 Vienna (FN 534254v) (hereinafter referred to as "we" or "us") and its business customers or, where applicable, the user of the VISA Yokoy Corporate Debit Card (hereinafter referred to as "Card"). Integral part of this General Terms and Conditions (GTCs) are the GTCs of our partner Modulr and the GTCs of our Partner Transact Payment Malta Limited (TPML). An overview of our partners and their respective roles can be found in Appendix 1. The GTCs of TPML in Appendix 3 take precedence over Yokoy's GTCs in case of conflict between the two documents.

2. Contractors

In order to be able to offer the card, we are dependent on contractual partners.

2.1. Account Partner

Modulr is our account partner. Modulr is regulated by the UK Financial Conduct Authority and the Central Bank of Ireland and is registered as an Electronic Money Institution. As such, it provides Yokoy with the account to process transactions. An account with Modulr can be opened directly through the app. Further information on Modulr can be found here: www.modulrfinance.com.

2.2. Transaction Partners

We use the services of Transact Payments Malta Limited to carry out transactions with the Yokoy corporate card. More Information about Transact Payments Limited can be found here: transactpaymentsltd.com.

2.3. Processor of the card

As the processor of our card we use the services of Marqeta Inc. Further information about Marqeta can be found here: www.marqeta.com.

2.4. Physical card manufacturer TagNiteCrest

TagNiteCrest produces the cards for Yokoy physically as well as virtually. More information about TagNiteCrest can be found here: www.nitecrest.com.

We reserve the right not to issue the card if the customer does not pass the customer identity and money laundering checks by our partner Modulr. Furthermore, we reserve the right not to issue the card if the check reveals that the card is being used for fraud, misuse, terrorist financing or other illegal activities. If

we decide not to activate the card, we will inform you immediately. In this regard, we refer to the terms and conditions of Modulr in Appendix 2. The customer is obliged to cooperate in this process and to testify truthfully. We may access the data from this process if it is necessary for the execution of the contract or due to a legally binding obligation.

3. Cards

Yokoy offers both physical and virtual cards. This is a corporate card that is linked to the company's account. It is the customer's responsibility to ensure that the account to which the card is deposited always has the necessary funds to cover the expenses of the card user. If this is not the case, the transaction will be automatically blocked.

The virtual card is ready for use immediately (subject to financial coverage). For the physical cards, depending on the chosen PIN activation method, cards can be activated at the point of creation, or upon receiving the cards, which typically requires an additional activation by the customer e.g. at an ATM machine.

It is possible to issue additional cards to employees on request. In this case, the company remains responsible for the use and misuse of the card and for all associated fees. These GTCs also apply to additional cards issued on behalf of the customer.

4. Fees

Since the fees vary depending on the customer size and order volume, they are specified separately in the order form, which is an integral part of the SaaS contract with the customer. We reserve the right to charge negative interest rates, should we be required to pay them according to Modulr's applicable Terms and Conditions.

5. Use of the card

The Card may only be used by the Corporate Client, a person or a group of persons authorized to use the Card by the Corporate Client. Furthermore, the Card is not transferable to third parties and it is prohibited to disclose the PIN for the use of the Card to third parties. The physical card must be signed for validity.

We may assume that an employee's transaction is authorised when the card is used or the contactless function of the card is used. The same applies to online purchases when the card number and CVC code is entered. Once the payment has been approved, it cannot be cancelled.

The value of the transaction and all fees associated with the transaction will be debited. If the transaction is made in a currency other than that allocated to the card, it will be converted according to the exchange rate set by VISA. This will vary but can be checked using the Visa Exchange Calculator. This is available at: <https://www.yokoy.ai/visa-fx-calculator>.

In principle, transactions are offered 24h / day and 7 days a week. However, this may not be 100% guaranteed due to severe technical failures. Further details on the availability of the card module are included in the SaaS contract.

6. Restrictions on card use

The Company is responsible for ensuring that sufficient funds are available in the account linked to the Card to cover all transactions made with the Card. It is also not permitted to use the card for illegal or gambling purposes. Certain transactions may also be prohibited. Furthermore, the internal regulations of our customers regarding the use of the card apply, over which Yokoy has no influence.

7. Overview of transactions

Transactions and available funds can be viewed on the Yokoy account at any time. This is accessible via web browser or via Yokoy app.

8. Expiration of the card

The card, and therefore this contract, will expire at the latest at the end of the month printed on the card. The card will no longer function after expiry and no transactions can be made with the card. In this case, a new card will be issued unless the customer relationship was terminated on this date.

9. Cancellation

At the end of the customer relationship with Yokoy, any remaining credit can be transferred to the company account.

We reserve the right to terminate the contract in the following cases:

- Repeated infringement of the provisions of the contract.
- Threats or inappropriate behavior towards our employees and partners.
- Without justification according to the notice period of the card module in the SaaS contract.

10. Security obligations of the company

We assume that all transactions made with the card or its card details are made by the customer or a person authorised by the customer.

The customer is responsible for keeping the card and card details safe and for ensuring that all persons authorised by you to use the card are kept safe and protected from theft, damage and misuse.

These include:

1. Remember PIN after receipt

2. Do not store the PIN together with the card or near the card.
3. Do not disclose the PIN to unauthorised third parties.
4. Do not enter PIN observed.

Failure to comply with these obligations may mean that the expenditure made with the card cannot be reclaimed.

11. Lost, stolen or damaged cards

If a card is lost or stolen by the customer or a person authorised by the customer, or if it is noticed that it is being used without authorisation, this must be reported immediately. The blocking of the card can be initiated in the online portal. After successful identification of the user or caller, the card will be blocked immediately so that no unauthorized transactions can be carried out at the expense of the customer. If the identification of the customer and the card is successful, a new card will be delivered. Fees may apply.

12. Purchases with the card

We accept no liability for the quality of the products purchased with the card. Any refund will be credited to the customer immediately upon receipt.

13. Customer service and support

The Yokoy app is a self-service portal. Actions such as freeze of card or suspicious transactions alerts or change of pin can be done via the Yokoy App. If you have any questions, please contact us by email at support@yokoy.ai.

14. Limitation of liability

The partners under point 2 are not liable for:

1. Unavoidable IT failures beyond their control
2. The quality of goods and services purchased with the card.
3. Lost profits and other indirect and consequential damages.
4. The seller does not accept the transaction or the card .
5. Damages resulting from compliance with national and international legislation.

In all other cases of liability, the liability shall be limited to a maximum of the amount on the account at the time of the liability case.

If the Card has been misused by the Customer or by a person authorized by the Customer, in a manner inconsistent with this Agreement, in an illegal manner, or if a Cardholder disclosed Card details as a

result of gross negligence, the Customer shall be responsible for the use or misuse of the Card without limit, subject to any statutory limitations on liability.

15. Personal information

In order to be able to offer the card, personal data must be processed. This is done in accordance with national and European data protection laws, in particular the GDPR. It may also be the case that data transfers outside the EU/EEA region take place in order to provide the services. In such a case, additional measures are taken to ensure the security of the data transfers. We are happy to refer to the privacy policies of our partners Modulr [Privacy Policy](#), Transaction Payments Ltd [Privacy Policy](#), Marqueta Inc. [Marqueta Privacy Notice](#) and TagNiteCrest Privacy [Policy](#).

16. Changes to the GTCs

Changes to these GTCs will be published on the website. If no objection is raised within 4 weeks, the new GTCs shall apply. This is subject to legal changes that must be implemented more quickly. The latest version of these GTCs is available on our website. We will also inform about possible changes by e-mail. If the customer does not contact us before the new changes come into effect, we will assume that the customer agrees to them. If the customer does not want to accept the change, the customer can terminate the contract on the effective date of the new GTC.

17. Applicable law and place of jurisdiction

This contract is subject to Austrian law. The place of jurisdiction is the registered office of Yokoy GmbH (Vienna).

Appendix 1 Our partners

Modulr: Account provider

In order to provide the Visa corporate debit card Yokoy works together with Modulr. Striving for transparency and increasing our customer's trust in our partners, Yokoy provides the following information: The General Terms and Conditions of Modulr apply at all times. They are annexed to Yokoy's General Terms and Conditions.

1. E-Money Institution: No-lending and same payment services regulations as a bank

Modulr is an e-money institution (EMI). E-money institutions are not allowed to lend money or offer interest. An EMI is holding 100% of client money at all times. Their payment services are regulated by the same payment regulations as bank payment services. The profits are made by the amount of transactions and the number of accounts.

2. What can EMIs do?

E-money institutions are authorized by the supervisory authority and allowed by law to issue electronic money and provide e-money accounts.

3. What is the benefit of using an EMI?

Modulr offers a payment as a service platform. It allows faster moving of money. The digital infrastructure enables businesses to automate their payment flows, maximise efficiency and put payments at the heart of their platforms, workflows and customer experiences.

4. Supervision

Modulr is registered in the United Kingdom for the UK market (Modulr FS Ltd, FRN: 900573) and in Ireland (Modulr FS Europe Ltd; Institution Code C191242) for the EU market. As such Modulr is supervised by the Financial Conduct Authority (UK) and by the Central Bank of Ireland (EU).

5. Safeguarding customer's money

100% of the customer's money is safeguarded. That means, it is segregated from all other funds and cannot be used for any other purposes for example to comply with its corporate obligations. Furthermore, as an EMI, Modulr must hold an additional 2 % of the total value of safeguarded client funds in own funds. which are held separately from client funds as well. Combining this 'own funds' requirement with the safeguarding means that client funds are 100% available to a client.

6. What happens in the event of a Modulr insolvency?

Modulr is required to have contingency plans for early identification of potential insolvency events. Those plans are subjected to external audit review. They are also to be shared with the Financial

Conduct Authority. Customer funds are separated from Modulr corporate funds and creditors are not able to make claims that impact customer funds. For the returning of the funds an independent insolvency practitioner will be appointed.

7. Conclusion

Since EMIs are not lending client's money to others they have reduced exposure to loss considerably. Furthermore, since EMIs are bound by the same regulations for their payment services as banks, your money is safely and securely stored at Modulr.
